

Hergom Glance Wall-Mounted Wood Burner Stove

<https://www.calonyradref.co.uk/hergom-glance-wall-mounted-wood-burner-stove>

The innovative, gravity-defying design of the Wall Hung Glance is truly something to behold; it has channels carved out of its rugged, cast iron body that act to define the entire stove. This combined with ceramic glass on the sides of this stove, as well as the front, means that it is possible to see flames dancing through the cast iron structure of the Glance.

This stove is now Ecodesign ready, and adheres to all of the current specifications for the new Clear Air legislation coming into effect in 2022.

The distinctive aesthetics of the Glance make it an undisputed focal point in any room, which is only exaggerated when hung from a wall. The combustion technology incorporated into this stove is also outstanding. The Hergóm Glance is a must-have stove for any contemporary home.

Available with top or rear flue exit.
