

Dean Forge Dartmoor Baker Plus 5 Eco Cook Oven Stove

<https://www.calonyradref.co.uk/dean-forge-dartmoor-baker-plus-5-eco-cook-oven-stove>

The new Dartmoor Baker Plus 5 Eco with a nominal output of 5kw, raises the height of the Dartmoor Baker Stove creating easier access to the oven.

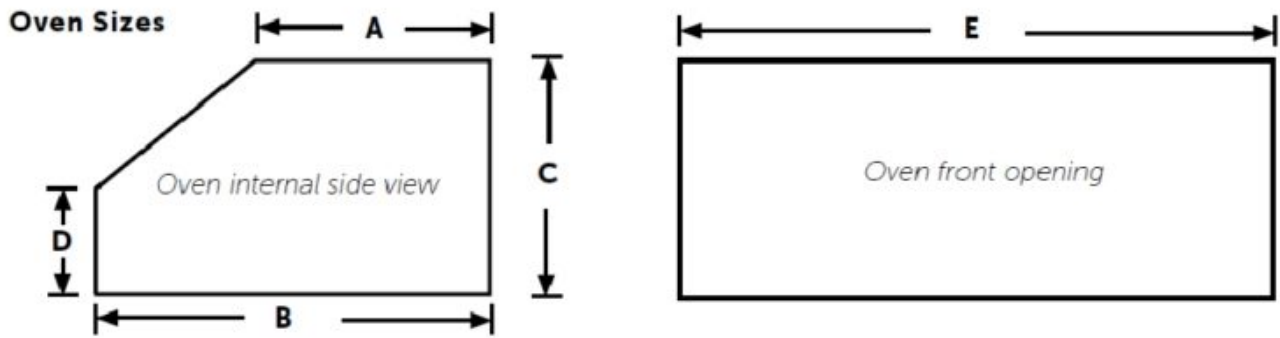

The Dartmoor Baker Plus 5 Eco's have oven vents which allow the cooking smells and condensation to be drawn out of the oven and up the chimney. If you would like to use the top of the stove to warm a pan or boil a kettle then the use of the back flue outlet is recommended when installing the stove. Using the rear flue outlet will create a clear area, providing extra space and access to the hotter part of the top plate (near the back), a Dartmoor Baker back adaptor with flue cleaning access can be purchased to achieve this.

All the Dartmoor Baker cook stoves have a removable cleaning plate located inside the oven. This door provides a cleaning access to the top of the oven or for sweeping the chimney when fitted with a top exit flue.

Oven Size Information

Tel: 01437 61 20 25

Stove	A	B	C	D	E
Baker Plus 5 Eco	155mm	205mm	150mm	100mm	280mm
