

Metal Ash Buckets with Lids & Wooden Handles

<https://www.calonyradref.co.uk/metal-ash-buckets-with-lids-and-handles>

As we all know hot ashes can be a problem to deal with; therefore having ash buckets is essential for proper handling of the ash from your solid fuel appliance - whether that's a wood burner in your living room, or a solid fuel range cooker in the kitchen.

Our purpose-made ash buckets are labelled accordingly, and come in two beautiful finishes - grey and ivory.

We also offer matching kindling buckets, as well as full matching fire accessory sets - ideal as a starter setup and a very thoughtful gift!
