

High Temperature Heat Resistant Stove Paint - Metallic Black

<https://www.calonyradref.co.uk/stovecare-high-temp-stove-paint-metallic-black>

This paint is supplied in a standard size 400ml aerosol can, and is our go-to metallic stove paint, purpose made for flues and stoves.

This high temperature spray paint offers a beautifully clean finish when applied to a properly prepped surface, and gives that stunning glistening metallic finish once dried.

For best results, always prep the surface first by sanding down any rusting or otherwise impaired surfaces prior to painting. Ideally you want all surfaces to be flat, even and smooth before applying your first coat. This way, the result will not be immediately impaired by existing blemishes on the stove.
