## Dik Geurts Ivar 10 H2O Store Freestanding CH Wood Stove with Log Store

https://www.calonyradref.co.uk/dik-geurts-greendesign-ivar-10-h2o-store-central-heating-wood-firestove-with-log-store

The Dik Geurts Ivar 10 H2O, Store is a smart central heating stove with the look and feel of a wood-burning fire. It provides optimal comfort through efficient use of residual heat. The fireplace heats the room directly, but also the central heating water indirectly, so you can enjoy the fireplace all day long!

If the stove is connected to the central heating system, the boiler ensures that a large part of the released heat is given off to the water section in your house. For example to the radiators but also to hot tap water. This stove is perfect to combine with a buffer tank and solar panels for even more efficiency.

Optional external air feed kit available.
